

# Hockaday Museum of Art Workshop Series Presents Phil Starke - Local Landscapes In Oil September 30, October 1 & 2, 2005

Known for his strong use of light and color, Phil Starke has gained national attention among galleries, museums, and at individual exhibitions. Starke became interested in art as a child living in Europe where he was able to enjoy the great masters in the museums of Italy and Germany. His formal studies occurred at the Art Institute of Chicago and the American Academy of Art in Chicago, where he received his degree in 1981. Early in his career, Phil's interests took him to many parts of the West and Southwest where he soon grew to love the culture and landscape. Traveling to a variety of locations several times a year has allowed Phil to mature as an artist and provide collectors of his work a variety of subject matter to choose from.

Phil's work can be viewed at [www.philstarke.com](http://www.philstarke.com).
